

CAVEBOY + FREAK

THE MODERN JOURNEY

TITLE: CAVEBOY + FREAK: THE MODERN JOURNEY

GENRE: ANIMATION, ACTION – COMEDY

TARGET: AGES 6–12, BOYS + GIRLS

CREATED BY: RAND BERTHAUDIN

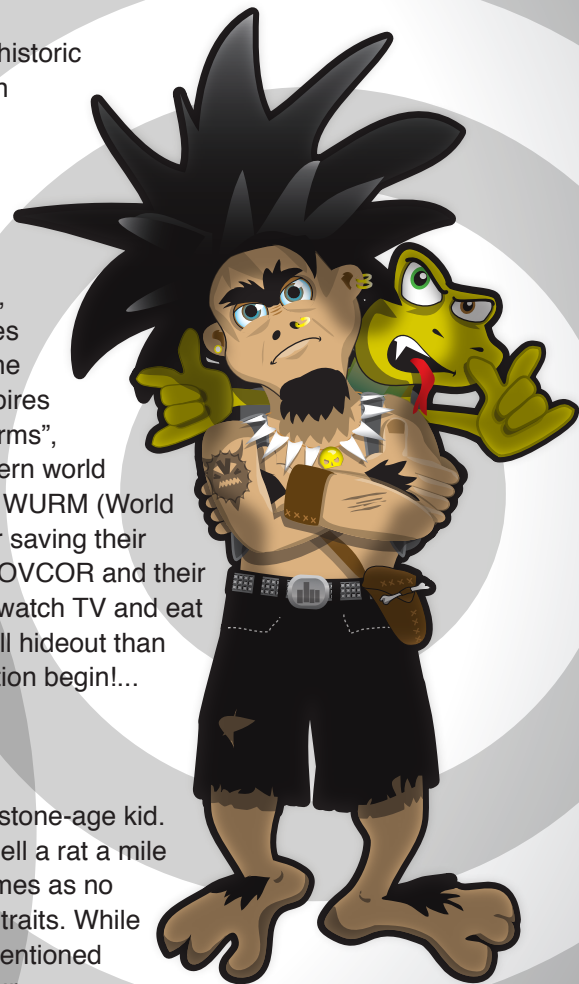

LOG LINE: With all the primitive powers of the past and the uber-technology of the present, who better than a hairy pre-historic caveboy and his genetic-misfit sidekick to save all of modern civilization – ahem, from itself?!

STORY: After spending 5 million years frozen in an iceberg, a **Caveboy** and a Darwinian-misfit named **Freak** (a serpent with hands but no legs) are miraculously defrosted back to life in modern time. But before you can say “media darlings”, their 15 minutes is up and they find themselves as renegades on the run and charged with the modest mission of saving the modern world. While a corrupt group called GOVCOR conspires to take control of the planet, the oblivious populace, “the Norms”, blindly carry on like well-fed zombies. The future of the modern world appears surely doomed, that is until the duo are rescued by WURM (World Underground Resistance Movement), which in exchange for saving their lives, Caveboy and Freak reluctantly agree to help defeat GOVCOR and their “Norm World Order”. The only problem is they would rather watch TV and eat fast food all day from the bowels of their mega shopping mall hideout than fight conspiracy and corruption, so... ummm... let the revolution begin!... I guess.

MAIN CHARACTERS:

More rebel than hero, **Caveboy** is a hairy, four-foot-nothing stone-age kid. And while he’s not the brightest bulb in the room, he can smell a rat a mile away. Since Caveboy is much closer to ape than man, it comes as no surprise that he hosts a whole range of beastly “uncivilized” traits. While Caveboy might represent the simple, dim-witted, but well-intentioned primate in all of us, his sidekick **Freak** represents more of our know-it-all, smart-ass, and yella-bellied side.

LOOK AND FEEL: Edgy, quirky, irreverent and stupidly hilarious. The cast live in a big-brother “mean streets” urban jungle littered with signs of surveillance, conspiracy and control and populated by a cast of bizarre misfits, thugs and a painfully oblivious citizenry. Welcome to the modern world!
